

How can your busy team retool and build the critical leadership skills required in these challenging times? Our engaging speaking events and immersive and fun Healing Leadership book club answer this question!

BRING HEALING LEADERSHIP TO YOUR ORGANIZATION

WITH DR. GINNY A. BARO

EMAIL INFO@EXECUTIVEBOUND.COM

www.HealingLeadership.com

Help your team retool, improve mental health, and shift from "surviving" to thriving!

HERE'S HOW WE DO IT!

SPEAKING EVENTS

We've successfully facilitated leadership training and coaching programs for Fortune 500 companies with more than 140,000 employees and delivered keynotes impacting global audiences. We'll support you too!

- Let's connect to discuss your upcoming event, potential dates, challenges, and objectives.
- We'll agree on a relevant theme, the logistics and plan a private event to meet your specific needs (keynote, leadership training, panel, etc.).
- We repeatedly collaborate with ERGs, executive teams, HR leaders, and decision-makers to infuse motivation and practical tools that enhance your employees' skills and impact your work culture.

BOOK CLUB

In a high-energy community with your team, as we read *Healing Leadership* together, we encourage and support them to acquire a new leadership skill set and practical tools.

- When we connect, we'll discuss how many eBooks or paperback books you'd like to purchase and how long you'd like to run the book club. A "kick-off" fireside chat and "wrap-up" with the author may be the perfect structure for your team.
- We'll make the eBooks available to your team directly from our website and give them access to our private, mobile-friendly, Healing Leadership members' portal.
- We'll stay engaged throughout the book club and can even create a leader board and award prizes at the end.
